# Group ICARA implemented on 30 September. Despite the prudent increase in the capital requirement, the surplus increased to £127m

Total Gross Debt	1,150

<b>Net Debt</b>	<b>813</b>

1 Represents net debt/run-rate adjusted KBL LTM EBITDA. See appendix for a reconciliation of LTM EBITDA to run-rate adjusted LTM EBITDA.

2. Represents Group ICARA requirement at Q3-25 (inclusive of a 30% buffer).

# Operating cash conversion remains strong. Closing cash increased although discretionary client onboarding outflows were only £7m in the quarter

# Conclusion

- 1 AUM growth was achieved over the quarter supported by strong investment performance and consistent net inflows. Encouragingly, we have seen an uptick in recruitment inflows post 30 September.
- 2 Continue to maintain industry leading profit margins whilst investing in the cost base to support future growth. We expect the business' operating leverage to result in margin increases in 2026 and beyond.
- 3 Successful refinancing of an additional £225m of debt, extending maturity to 2030 and beyond and reducing interest costs.
- 4 The redress scheme is in progress, and the level of provision is still appropriate. Cash outflows remain fully funded and still expected in 2026.
- 5 Very focussed and confident in growing net flows back to previous levels whilst continuing to deliver cash flows which will finance recruitment and reduce leverage over time.
