

True Potential Pictet Growth

Investment Manager

Sub-investment manager

Objective and Investment Policy

The Fund seeks to deliver growth over a rolling 3 year period net of fees.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund will provide exposure to a mixed portfolio using a multi-asset strategy combining different asset classes such as shares, bonds and cash (as further explained below).

The Fund may also invest in shares; corporate bonds; government bonds; money-market instruments (investments usually issued by banks or governments that are a short-term loan to the issuer by the buyer); collective investment schemes; derivatives and forward transactions (including securities embedding derivatives); and deposits.

The Fund will typically (i.e. within normal market conditions) be invested with exposure to:

- 50% - 90% by value in listed shares (the exposure within normal market conditions is expected to be around 65%); and
- 10% - 50% by value in publicly traded corporate and/or government bonds (a loan, usually to a company or government, that pays interest), money market instruments, deposits and/or cash and near cash instruments (the exposure within normal market conditions is expected to be around 30%).

The above exposures may be achieved directly or indirectly, including through collective investment schemes. This may include schemes managed by the ACD, Investment Manager or sub-investment manager, or an affiliate of these parties.

Corporate bonds may include high yield debt (which have a higher risk of default but potentially offer higher returns to compensate). Government bonds may include emerging markets (bonds issued by less developed countries).

The Fund may also be invested up to 10% in commodities, metals, energy and agricultural products (the exposure within normal market conditions is expected to be around 5%). Exposure to commodities may be achieved indirectly through exchange traded products.

Derivatives may be used for investment purposes to a limited extent for: a) investment purposes, b) protecting against the effects of interest rate changes, c) to enhance income returns, d) to protect against default risks, e) to limit currency exposure.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

There are no geographic restrictions on the investments.

The Benchmark for this fund is Morningstar UK Moderately Adventurous Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Fund. Our aim is to help you monitor how your investment is performing. The ACD believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Fund. The Fund does not use the benchmark as a target, nor is the Fund constrained by it. The mix of assets in the Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 2 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 0.89%

There are no entry or exit charges.

Launch Date: 24 February 2022

Risk Profile: Growth

The Growth Investor may be willing to accept high risk and chance of loss in order to achieve higher return on his or her investment. Significant losses over an extended period may prompt the Growth Investor to shift to a less risky Investment.

Why True Potential Pictet Growth?

The True Potential Pictet Growth fund is sub-managed by Pictet Asset Management.

The True Potential Pictet Growth Fund integrates a thematic investment approach into multi-asset, designed to capture opportunities in areas of secular growth.
